Attachment(s)

Applicant's election with traverse of Group II, claims 22, 25 and 23 (in part) in Paper No. filed January 22, 2004 is acknowledged. The traversal is on the ground(s) that each compound of claims 22-25 (36-38) is included in the general formula 22(34) and they have a common structural feature. This is not found persuasive because the compound of claim 24 includes a tetrazole group that is not included in the formula I of claim 22. However, claim 25 is included in Group II with claim 22. The compound of claim 26 includes a oxadiazole group that is not included in the formula I of claim 22. For these same reasons the compounds of claims 36 and 38 are not included in the formula I of claim 34.

The requirement is still deemed proper and is therefore made FINAL.

Claims 14, 15, 19 to 21, 24, 26 to 42 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the paper filed January 22, 2004.

Claims 22, 23 and 25 are objected to because of the following informalities: the claims contain nonelected subject
